

Operations Overview Report

(Last 01 Days)

Contents

- Summary Metrics — Snapshot of key KPIs (trips, distance, hours, fuel, violations).
- Daily Assets Active — Active vehicles per day vs. total fleet to see utilization trends.
- Movement vs. Idling — Time split between moving and idling to highlight wasted hours.
- Fuel Expense — Motion vs. idle fuel spend over time; totals highlight cost drivers.
- Night Drivers — Vehicles with night-driving hours and daily totals (after-hours activity).
- Speed Violations — Counts and ranking of speeding events by vehicle/day (risk focus).
- Geofence — Entries/exits and dwell insights for zones (route & site compliance).
